Work Experience

Web Designer   Jun 2016 - Apr 2018

Future It Solutions, Bangalore, India

- Helped to achieve a consistent look and visual theme across the website by promoting uniform fonts, formatting, images, and layout.
- Worked to assess competing websites in regards to content, look, and feel.
- Effectively translated client requirements into application designs and system requirements.
- Brought forth vast experience designing and developing responsive design websites.
- Collaborated to create strategic initiatives to design, code, and test solutions.

Master Thesis - Book my parking

SRH Hochschule Heidelberg, Germany

- The main objective of the Master Thesis was to deliver a solution to customers who find it difficult to find a parking spot.
- Researched and identified problems through people's talks and user research.
- Performed brainstorming and sketching.
- Based on the responses obtained and keeping in mind all the environmental benefits, a mobile app was designed where users can search for the nearest parking place and reserve the parking slot in advance.
- Complete UI design of book my parking from usability case studies, wire-frame using Balsamiq, and prototypes using Adobe XD to a fully functional mobile app.

Skills.

- UX Research
- UI Design
- Interaction Design
- Wireframing
- Prototyping
- Journey Mapping
- Usability Testing
- HTML
- CSS
- Persona

Tools

- Adobe XD
- Sketch
- Figma
- Balsamiq
- InVision
- Visual Studio Code
- Adobe Creative Suite

Research/Internship - Music Game Application

SRH Hochschule Heidelberg, Germany

- Implemented and Designed application modules under the direction of Prof. Dr. Andreas Jäger.
- The application was created for a selected set of users whom they can create music using lyrics, drums, guitars, and keyboards.
- Worked to ensure a positive and hassle-free customer experience.
- Utilized my skills and knowledge of hand and power tools to design and build.

Personal Projects

Online Doctor Appointment System

- The main purpose of the Doctor Appointment System is to manage the details of the Doctor, Appointment, Patients, Booking, and Doctor Schedule.
- Successfully restructured our online presence, giving it a fresh and new feel.
- Leveraged my creativity to identify new ways to increase online presence.
- Provided accurate daily appointment schedule information to the doctor.
- Utilized crucial design software skills to assist with projects.

Recycling waste Management System

- The objective of this project is based on environmental protection.
- Users can book an appointment and can get information about recycling wastes with company information.
- User stories were created based on the interviews of the consumers.
- A customer journey map was created to show the user experience.
- Utilized Design Thinking concepts and built a creative user-friendly wire-frame and Prototype using Adobe XD, Balsamiq.

Manage film DVDs

- Helped to effectively manage the film DVDs and all the related data.
- A paper prototype was initially designed and the frontend was developed using WPF.
- The framework used with WPF was .NET.
- Worked to ensure a neat and attractive application design, and to personalize the film DVDs.
